CRISP

Frontend Developer - Level Test

TASK DESCRIPTION

The test task is to code up this one page.

Design

https://www.figma.com/file/F2dLKI7wL6um5l4wil3hd9/Shopify-Test-Task

You only need to produce this one page, internal pages are not needed.a.

Requirements are:
- it must work and look pixel perfect to design on following browsers: Edge, Chrome, Safari, Firefox
- it must be responsive (you decide how it should look and work on tablets & mobiles)
- only pure js can be used for functionality where needed (no jquery or any other libraries)
- newsletter functionality is not needed but field must be functional
- for frontend please use scss + BEM methodology
- site must include subtle animations on content blocks to make it look more alive and engaging
- we will be looking for high attention to detail and creating the result that is as close to flawless as possible.

Any questions - please let us know.

Let me know if you can do it, what is your estimate for it and let me know when you can deliver it.
